Honoring Wounded Warriors
Disabled in the Wars in Iraq and Afghanistan

Wounded Warrior Sports Rehabilitation Camp, June 13-17
Their Spirit Inspires Dinner, Saturday, June 16th

This event celebrates the accomplishments of Disabled Sports USA Far West, our participants, volunteers and honored guests. The “Their Spirit Inspires” Dinner is the culmination of a four-day event highlighting the abilities of people with disabilities and the powerful positive health and confidence building effects of our programs.

The week starts with a Sports Rehabilitation Camp for 25 soldiers and marines disabled in Iraq and Afghanistan. They will receive specialized instruction in waterskiing, whitewater rafting, paddle sports, adapted cycling and sled hockey. This program is designed as part of their therapy and re-integration into the community.

Please join us in celebrating the abilities of our honored guests. For more information, please visit our website at www.disabledsports.net.

Their Spirit Inspires Dinner 2012

An inspirational evening highlighting the positive effects of sports rehabilitation for Wounded Warriors disabled in the wars in Iraq and Afghanistan

WHAT: Soldiers and marines disabled in Iraq and Afghanistan will spend a week in Sacramento learning sports to help them cope with their disabilities and adapt to everyday life. For the seventh year, Disabled Sports USA Far West is bringing those modern day American heroes to Sacramento to help them begin to continue to lead active, productive lives. The week will culminate in an inspirational dinner to honor the soldiers' sacrifices for our nation.

Participation in sports rehabilitation programs has long been recognized as being a powerful catalyst in the development of a positive self image and achieving attitude for people with disabilities. Our honored guests will gain specific skills that will increase their self-confidence and mobility.

In addition to this special sports camp, Disabled Sports works with more than 800 local children and adults with disabilities in our adaptive sports and therapeutic recreation programs each year.
